

Bench Seats for **Hobie 16**

Hobie Benches...
Isn't it about time!

New on the market from **Sit 'n' Sail**, Hobie 16 Catamaran Benches.

These are "Bench Seats" that you sit on. They attach to your trampoline frame using our supplied stainless steel bracket hardware. The bench seats are available in **Black, Yellow, Blue, White and Red.**

I have field tested these products for about one year, and they are rock-solid. This is a legitimate product made by a Hobie enthusiast for other Hobie enthusiasts to enjoy. They are not available anywhere else in or outside of the U.S. Go ahead, just try to find some. We are a new company named **Sit 'n' Sail**, and we want to promote our product for the popular Hobie 16 market.

Now you can finally have a comfortable ride with the wife or kids, and no more tiring seating positions. I have a pair on my boat, and I love them. It's hard to believe that no one made these "Bench Seats" until now. Again, this is a legitimate product and now you can have a pair on your boat and start sailing in comfort.

Features of these Bench Seats :

- * **Bolt-On installation! No modification or drilling of any kind is needed.**
- * **Single person installation in minutes. These are a snap to install all by yourself.**
- * **Rubber coating applied to each bench seat for better adhesion while sailing or trapezing.**
- * **Each bench seat will support up to 350 lbs. evenly distributed.**
- * **Much more comfortable than non-bench catamarans. (see pictures)**
- * **Yes! You CAN trapeze from these benches! I do all the time. However, you may have to adjust your trapeze lines.**
- * **You can even use them as a backrest and lean on them. This is very comfortable.**
- * **Made of non-corrosive material: Fiberglass Bench Seats, (Available in Black, Yellow, Blue, White and Red), Aluminum Support Arms (Powder coated, Black), and Stainless Steel Mounting hardware.**
- * **Only basic tools required, (3/4, 9/16)**
- * **Total combined weight of Sit 'n' Sail benches are only 42 lbs.**
- * **4-Color installation manual included.**
- * **Designed and made in the USA. Not available anywhere else.**

(Patent Pending 60/458,809)
