

SOL 18. THE ULTIMATE EIGHTEEN.

The indisputably fast Sol 18, three time winner PMA Efficiency Trials, twice winner PMA Speed Trials, winner OA LIMA Season Championship '76, 2nd OA NAMS North American Championship '75.

SOL

No cats their size faster in production anywhere.

The Sol 18 is a remarkable achievement in modern design, engineering, construction and performance. Even more amazing is that the Sol 18 will carry three or four adults — with suds and sandwiches — daysailing without sluggishness or crowding. Add to these the Sol 18's rugged hand laid hulls, stainless steel and anodized aluminum fittings, Seaway blocks, double swaged rigging, IYE full length roller bearing traveler, fully kick-up fiberglass rudders, and heavy gauge rigid crossbeam system and you have the ultimate in modern, space age sailing technology.

And, as if that weren't enough, the Sol 18 is priced below most comparable size competitors. For the ultimate in catamaran excitement, durability, and value see your nearest Sol Dealer today. Or write or phone Sol Industries, 1932 E. Pomona, Santa Ana, CA 92705. (714) 541-2285 for information and dealer locations. And ask about the Sol 18... The Ultimate Eighteen. Sol Cats are featured in "Jaws II," soon to be released by Universal Pictures.
